

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

COMPILED AND ARRANGED

BY O. A. ROORBACH.

New York:

ORVILLE A. ROORBACH.

**FOR SALE BY G. P. PUTNAM, 155 BROADWAY, N. Y.,
AND 142 STRAND, LONDON.**

1849.

ENTERED according to Act of Congress, in the year 1849,

By ORVILLE A. ROORBACH,

In the Clerk's Office of the District Court for the Southern District of New York.

Stereotyped by
RICHARD C. VALENTINE,
New York.

R. CRAIGHEAD, Printer,
114 Fulton-street.

THE purpose of this book is to supply Booksellers with a practical Manual information respecting all books printed in this country during the last thirty years in other words, all American editions now in the market. Some few of the most important or curious works printed prior to 1820 are also mentioned.

The aim has been to make the arrangement such as will give the desired information with as little search as possible. The prices are taken from the publishers' Trade Lists. Of such books as are now scarce, or out of print, and which are to be found only in the hands of collectors of second-hand and rare books, the size, publisher, and date of publication alone are given, as the present price is regulated by the scarcity or intrinsic value of the work.

As far as could be ascertained, all reprints from English works (excepting the Illustrated list) are noted by (*), American translations of Foreign works by (†), and reprints having notes or additions by American editors, are indicated by (‡).

Biographical and Law books are classed separately at the end of the volume. The general list contains both the authors' names (when they are given in the books) and also the title of the book, repeated in its place in the alphabetical arrangement.

It is proposed to continue this Catalogue by Supplements, at intervals, in which errors which may have occurred in this volume will be corrected. It is also intended to publish a Classified Index.

Believing that such a book of reference as this will be found of essential value to every one connected with the Trade, the compiler trusts that every Bookseller will once coincide in this opinion; and as only a small edition is printed, specially for their use, it is hoped that the Trade will promptly join in repaying the very considerable trouble and expense incurred.

All Americans who appreciate pure taste unalloyed by prudery, sterling genius united with good sense, unobtrusive morals, and unaffected patriotism, will warmly approve of the collected edition of the works of Miss Sedgwick.

"The great topics of political economy are treated in a comprehensive and liberal view, all the modern deductions of that science are presented in a brief space, and are extended and applied to the circumstances of our own condition and exigencies. The chapters on education, free banking, the cost of protection, and self-government, contain passages which we should gladly have extracted, because of their truth, and because they strikingly illustrate and powerfully enforce doctrines that have for years been advocated in the columns of this journal, and which, though in great part practically established, to the promotion of public prosperity, are still the object of search and perfection."—*Journal of Commerce*

G. P. Putnam, 155 Broadway.

MR. IRVING'S NEW WORKS

Now nearly ready, for the press: Including

**The Life of Mohammed; The Life of Washington; new
volumes of Miscellanies, Biographies, &c.**

* * * This being the first uniform and complete edition of Mr. Irving's works, either in this country or in Europe, the publisher confidently believes that the undertaking will meet with a prompt and cordial response. To say this, is perhaps superfluous and impertinent; for it is a truism, that no *American* book-case (not to say *library*) can be well filled without the works of Washington Irving; while the English language itself comprises no purer models of composition.

One volume, square octavo, cloth extra, \$3 50; cloth gilt, \$4 00; morocco extra, \$6 00.

"We confess that we know of none in this country so competent to the task of illustrating this work as the young artist selected for the purpose, Felix Darley, some of whose designs we have had the pleasure of seeing. They are full of the quiet, Crayonish humor peculiar to the author, and drawn with the same elegant dash and freedom from blemish which distinguish all his works. Until we saw these designs we were incredulous as to the ability of any of our native artists to properly illustrate the humorous passages in Irving's writings."—*Evening Mirror*.

STUDIES IN DRAWING, in a Progressive Series of Lessons on Cards; beginning with the most Elementary Studies, and adapted for use at Home and Schools. By Benjamin H. Coe, Teacher of Drawing. In Ten Series—marked 1 to 10—each containing about eighteen Studies. 25 cents each.

The design is:

I. To make the exercises in drawing highly interesting to the pupil.

II. To make drawings so simple, and so gradually progressive, as to enable any teacher, whether acquainted with drawing or not, to instruct his pupils to advantage.

III. To take the place of one-half of the writing lessons, with confidence that the learner will acquire a knowledge of writing in less time than is usually required.

IV. To give the pupils a bold, rapid, and artist-like style of drawing.

They are executed with taste and skill, and form, in our judgment, one of the best series of lessons in drawing which we have met with. The author justly remarks that "the whole is so simplified as to enable any teacher, without previous study, to instruct his pupils with advantage."
